<p>2.6.1.</p> <p>QIM</p>	<p>Programme and course out comes for all Programmes offered by the institution are stated and displayed on website and communicated to teachers and students.</p> <p>Describe Course Outcomes (COs) for all Programmes and mechanism of communication within a minimum of 200charactersand maximum of 200 words</p> <p>File Description:</p> <ul style="list-style-type: none"> • Upload any additional information • Paste link for Additional information • Upload Cos for all Programmes (exemplars from Glossary) <p>HEI being an affiliated college follows the university curriculum for most of the programmes. University curriculum is based on LOCF and the learning outcomes of the courses are well defined and stated in the curriculum. Institute has designed POs, COs for all programmes by faculties based on curriculum of affiliating university, graduate attributes and using Bloom’s taxonomy. These are displayed on college website and made available to all teachers and students. Teachers use these outcomes for preparing their course wise teaching plans. Teaching plans are displayed on departmental notice boards and also communicatedthrough classrooms. Students are also made aware of the outcomes through induction Programme and mentoring. Teachers are aware of the six aspects of the Bloom’s taxonomy. Teachers follow these POs, COs as well as the six aspects of the Bloom’s taxonomy while framing the questions for internal tests as well as university examinations.</p> <p>For B.Voc. Programmes and Certificate Courses, the curriculum is designed by the faculties of the departments by considering local needs, skills to be earned, employment opportunities and using Bloom’s taxonomy. POs and COs of these programmes are framed by the faculties and stated on website for easy access to the students. For these programmes also the questions for internal and university examinations are framed on the basis of the same.</p> <p>Prospectus of the college, website, departmental meetings as well as personal counseling proved to be important for the achievement of the outcomes.</p> <p>The attainments of the POs and COS are mapped and evaluated for most of the course and programmes.</p>

Mechanism of Communication:

- a) Prospectus: - Prospectus is made available to the students and information about admission, admission fees, and new curriculum is included in it.
- b) Institutional website: - Institutional website is available for information about the academic course.
- c) Meeting: - Through regular meetings of principal and teacher are acquainted about the stated Program and course outcomes and its effective implementation.
- d) Personal Counseling of the student is done.

By the end of this program the students will be able to-

PO1: Develop all-around personality of the students.

PO2: Learn and understand the mother tongue as well as the foreign language like English and make use of them.

PO3: Understand and state the historical name, events and know the importance of history subject. To learn from the past and act to the present to make their future.

PO4: Develop leadership quality among students through political science Subject.

Programme Outcome (PO), Specific Programme Outcome (SPO) and Course Outcome (CO)

B.Sc. Programme Outcome (PO)

Choice Based Credit System – 2019

- PO1** This course forms the basis of science and comprises of the subjects like physics, chemistry, botany, zoology and mathematics, electronics.
- PO2** It helps to develop scientific temper and thus can prove to be more beneficial for the society as the scientific developments can make a nation to grow at a rapid pace.
- PO3** After the completion of this course students have the option to go for higher studies i.e. M.Sc. and then do some research for the welfare of mankind.
- PO4** After higher studies students can join as scientist and can even look for professional job oriented courses.
- PO5** This course also offers opportunities for serving in Indian Army, Indian Navy, and Indian Air Force as officers.
- PO6** Science graduates can go to serve in industries or may opt for establishing their own industrial unit.
- PO8** After the completion of the B.Sc. degree there are various other options available for the science students. Often, in some reputed universities or colleges in India & abroad Apart from the research jobs, students can also work or get jobs in Marketing, Business & Other technical fields. Science graduates also recruited in the bank sector to work as customer service executives. Students can also find employment in government sectors.
- PO9** Apply knowledge of Animals, insects, Birds and reptiles for the benefits of society

Program Specific Outcomes (PSO)

Choice Based Credit System – 2019

- SPO1** Knowledge and understanding of the range of plant diversity in terms of structure, function and environmental relationships. The role of plants in the functioning of the ecosystem.
- SPO2** Able to think logically and organize tasks into a structured form.

Assimilate knowledge and ideas based on wide reading and through the internet.

- SP03** Students learn to carry out practical work, in the field and in the laboratory, with minimal risk. They gain introductory experience in applying each of the following skills and gain greater proficiency in a selection of them depending on their choice of optional modules.
- Interpreting plant morphology and anatomy.
 - Plant identification.
 - Vegetation analysis techniques.
 - A range of physiochemical analyses of plant materials in the context of plant physiology and biochemistry.
 - Analyze data using appropriate statistical methods and computer packages.
 - Plant pathology to be added for sharing of field and lab data abstained.
- SP04** Apply the knowledge of basic science, life sciences and fundamental process of plants to study and analyze any plant form.
- SP05** Identify the taxonomic position of plants, formulate the research literature, and analyze non reported plants with substantiated conclusions using first principles and methods of nomenclature and classification in Botany.
- SP06** Design solutions from medicinal plants for health problems, disorders and disease of human beings and estimate the phytochemical content of plants which meet the specified needs to appropriate consideration for the public health
- SP07** Create, select, and apply appropriate techniques, resources, and modern instruments and equipment's for Biochemical estimation, Molecular Biology, Biotechnology, Plant Tissue culture experiments, cellular and physiological activities of plants with an understanding of the application and limitations.
- SP08** Understand the impact of the plant diversity in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- SP09** Apply ethical principles and commit to environmental ethics and responsibilities and norms of the biodiversity conservation.
