Criterion II :Student Performance And Learning Outcome [QnM-2.6.]

2.6.2. QlM	*AttainmentofProgrammeoutcomesandcourseoutcomesareevaluatedbytheinstitution.* Describe the method of measuring the level of attainment of POs, PSOs and COs in not more than 200 **File Description:** • Upload any additional information • Paste link for Additional information 1. HEI being an affiliated college follows the university curriculum for most of the programmes. The curriculum of some of the programmes as well as certificate courses is designed by the faculties of the departments on the basis of need, skills to be imbibed, and employment opportunities using Bloom's taxonomy and UGC guidelines. 2. Institute has designed POs, COs for all programmes by faculties based on curriculum of affiliating university, graduate attributes and using Bloom's taxonomy. 3. COs are designed by the course teachers and finally POs of any programme are designed by team of teachers from the respective department. 4. Teaching plans are prepared in tune with the COs and POs by the course teachers. 5. Teachers follow these POs, COs as well as the six aspects of the Bloom's taxonomy while framing the questions for internal tests as well as university examinations. 6. The students are analyzed for their marks for internal as well as external examinations and the mapping of COs and POs are done in terms of marks. Thus the marks lists are obtained. 7. The attainment levels are evaluated for each student in course wise manner using a well-developed mechanism/procedure by a separate committee constituted by IQAC. 8. This attainment level can be evaluated for one or more than one internal tests and the weighted average of the same is obtained. 9. Finally, after mapping and evaluating attainment levels for each course, the attainment levels for the students for particular programme are evaluated. 10. The attainment levels evaluated for different programmes are documented and maintained by the committee and made available to IQAC whenever required.
