4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection

Response:

The college has a good mechanism to improve and address the infrastructure of information communication technology. ICT evaluates students, staff and others in the college. College provides budget to increase the physical facilities of ICT. Expertise has been appointed to maintain the hardware and ICT infrastructure. Computers and printers are provided to all departments as required.

Information and communication technology enables effective teaching, learning and research. It provides reference source for research for the students and teachers.

All the departments in the college are provided with the computers and internet services along with LAN. Battery backup (inverter) is provided to all the computers present in various sections and laboratories.

Broadband facility has been provided to all the departments of the college. The campus of the college is connected by LAN and Wi-Fi network. Broadband connection with the 100Mbps is available in the premises. The service is provided free of cost to the students and staff. Teachers and students search for relevant information using the various search engine to make learning effective and enjoyable.

The college has separate computer laboratories for the department of B. B. A. (C.A.) and B. Sc. Computer Science. Antivirus software has been installed to all the computers. The entire college campus is well equipped with ICT facilities. The college has 06 printers, 02 Projectors, 07 all-in-one machines (printer, scanner and photocopier). Total number of computers in the college 79.

Shri Baneshwar Shikshan Sanstha's
